THE WOOD INDUSTRY EXHIBITION

ATTENTION !
New dates :

From 10 to 13 March 2010
Paris-Nord Villepinte · **Hall 6** · France

EXPOBOIS 2010 NEWS

**New!
The Interactive Floor Plan**

Expobois is expanding its services to both visitors and exhibitors ahead of the show with an interactive floor plan that provides **improved visibility of the range of exhibits** and an **improved preparation of your visit**.

From **today** you have access to **all exhibitor stands** and their **product offer**.

All Internet users need to do is determine their **selection criteria** in terms of machines, products or company name. In the course of the virtual visit a selection of stands is made - in the "basket" - and a **"tailor-made" visit guide** may then be sent by e-mail and printed by the virtual visitor.

This customized visit guide is an **essential tool** that can **optimize** and make a **visit** to the show **efficient!**

Click on this [plan and visit guide link](#) to access directly the **Expobois 2010 stands** and plan your visit today!

AT A GLANCE

Industry players confirm participation

A few months before the show opens, the marketing of Expobois 2010 continues unabated. Many companies have already confirmed their participation, which indicate the importance and value they place on this event.

INDUSTRY NEWS

Wood Dust: A Public Health Concern

An estimated **300,000 workers** are exposed to **wood dust in France**, whether in sawmills, on construction sites, in shipyards or in the manufacturing of furniture.

The dust produced during the processing of wood can cause **pathologies with varying degrees of severity**: among the most severe, nasal and sinus cavity cancers and pulmonary lesions; and among the less severe, skin and mucous irritations that may lead to allergies.
