

XYLEXPO 2010: IDEAS AND TECHNOLOGY

The 22nd **Xylexpo**, the biennial world exhibition dedicated to woodworking technologies and furniture supplies, will take place **from 4 through 8 May 2010** in the Milan Fairgrounds located in Rho, under the patronage of [Eumabois](#), European federation of woodworking machinery manufacturers.

Xylexpo will be held together with the Technology Exhibitions Week event, organized by Fiera Milano Rassegne, which groups three specialized shows: **Bias** (biennial international automation, instrumentation, microelectronics and ICT for industry exhibition), **Fluidtrans Compomac** (biennial international of fluid power and mechatronics exhibition and mechanical power transmission & motion control) and **Mechanical Power Transmission & Motion Control** (biennial international mechanical transmission, motion control and mechatronics exhibition).

Xylexpo opens the doors to semifinished products, furniture supplies, raw materials, hardware and all other wood based products. Products find space close to machinery and plants in a new and innovative exhibiting lay-out.

Xylexpo puts the manufacturers from all over the world in direct contact with an audience of international business operators: 81,980 visitors, with 50 percent from outside Italy, in an area of 76 thousand sq.m. (807,293.28 square feet).

4 - 8 MAY 2010
